

Anti-static Spray

Technical Data

ANTI-STATIC SPRAY is a specialist formulation for the temporary reduction of electrostatic charges generated by friction and atmospheric conditions. Anti-Static Spray reduces airborne dust accumulation and is safe to use on most substrates. Particularly useful in the textile and paper making industries or for use in dust laden atmospheres.

- Rapidly reduces electrostatic charges
- Quick and easy to use
- Inhibits airborne dust accumulation
- Non-toxic & soluble in water

APPLICATIONS

- Plastic components
- Paper mills
- General static discharge

Spray a light, even coating from 9 – 12" (23 – 30 cm).

N.B Do not use on live electrical equipment. After applying, always leave for 4/5 minutes before operating the equipment.
Not recommended for use on plasma, LED or LCD screens.

TECHNICAL DATA

Appearance	:	Clear, colourless liquid
Odour	:	Sweet, alcohol type
SG @ 25°C	:	0.79
Pressure @ 25°C	:	3 Bar
Discharge rate	:	1.3 g/sec
Packaging	:	400ml

PART NUMBER:
6130004020

STORAGE

The product may be stored at normal ambient temperatures and has a shelf life of not less than 72 months with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flame.

HEALTH AND SAFETY

Health and Safety sheet available separately.

TECHNICAL SERVICE

CRC Industries UK Ltd provides a technical support service and maintains a constant programme of research and development. We are able to assist customers by specific product development to meet particular requirements.
